

Senior Design Bi-Weekly Status Report; Fall 2020

Report Period: Aug 17-Sep 6

Summary of Progress in this Period

We met with our faculty advisor/client and introduced ourselves to Dr. Ravikumar and shared our backgrounds and our interests in the project with him. We also got together as a team to discuss roles and expectations for the project.

Pending Issues

The only issue we are currently facing is figuring out how we would plan on using the \$300 of credit we would get when setting up an account for Google Cloud Platform.

Plans for Upcoming Reporting Period

For the upcoming reporting period we will figure out how to set up a Google Cloud Platform by working with Dr. Ravikumar and asking him how to further start setting up for this project.
